

Andrew Shidel
CS 350 Assignment #2
Test/Survey Taking program

Running the program:

- 1). Import and run the project from Eclipse
- or**
- 2). Run “ant run” from the command line.

Method used for saving Documents:

I chose to use the built in object serialization methods for storing Documents. The test files can be found in ./Documents and ./bin/Documents. Both locations contain the same files. The save location depends on where you are running the program from.
